

| <b>Physical Properties:</b>               |           |
|---|-----------|
| Absorption                                | 1.74%     |
| Density lbs/ft <sup>3</sup><br>(ASTM C97) | 1.65      |
| Bulk Specific Gravity<br>(Astm C97)       | 2.64      |
| Compression Strength, PSI<br>(ASTM C170)  |           |
| Dry, Parallel                             | 12,700.00 |
| Module of Rupture, PSI<br>(ASTM C99)      |           |
| Dry - Parallel                            | 2,780     |
| Dry - Perpendicular                       | 2,400     |

### **1. Versions:**

Squares and Rectangles  
Strips  
Webb Wall

### **2. Geologic Designation:**

Limestone

### **3. Trade Names:**

Seneca Valley, Seneca Webb

### **4. Color Range:**

**Gray with Buff accents**

### **5. Applications:**

Exterior Walls, Interior Walls, Fireplace Facings,  
Retaining Walls, Patio Flagstone, Pool Decking, Wall  
Capping

### **6. Types:**

Dimension Stone Veneer

### **7. Sizes:**

Standard Thickness 4" & 6" veneer

### **8. Finishes:**

Split Face, Seam Face

---

### **Completed Projects:**
