BUCKSKIN TAN FIELDSTONE

A popular stone well-suited for all types of new American homes.

Because of its pleasing range of lighter colors, Buckskin Tan Fieldstone is often used for full stone fronts.
Type: Sandstone.
Color: Tan overall, with accents ranging from buff to chocolate brown.
Shape: Rubble only.
Size: Faces from ½ sq. ft. to 1½ sq. ft.
Coverage: 4-6” veneer—30-35 sq. ft. per ton
8” veneer—25-30 sq. ft. per ton
Larger facings may be available, depending on the run of material.
Exact coverage depends on building design and masonry techniques.
Colors can be custom-blended to meet individual requirements, for example, to match existing stonework. However, as a naturally occurring property of the stone, color will vary.
