DELAWARE QUARRIES
STRENGTH FROM THE PAST. QUALITY FOR THE FUTURE.
DELAWARE QUARRIES MAKES IT POSSIBLE TO SINGLE-SOURCE ALL YOUR BUILDING STONE NEEDS. FROM A DECORATIVE GARDEN WALL TO A CORPORATE HEADQUARTERS, FROM A BEAUTIFUL NEW HOME TO AN ARCHITECTURALLY SIGNIFICANT UNIVERSITY BUILDING, ALL SIZES AND KINDS OF JOBS CAN BE SUPPLIED PROMPTLY... AND TO YOUR EXACT SPECIFICATIONS FOR TYPE OF STONE, SIZE, SHAPE AND COLOR. WHEN DELAWARE QUARRIES IS YOUR SOURCE OF STONE, YOU ARE ASSURED AN UNINTERRUPTED FLOW OF MATERIAL TO THE MASON.

FOR MORE THAN 40 YEARS, FROM OUR HEADQUARTERS ON THE BANKS OF THE HISTORIC DELAWARE RIVER, WE'VE QUARRIED AND SOLD THE FINEST QUALITY STONE VENEER FOR JOBS NATIONWIDE. OUR MAIN QUARRY HAS BEEN IN CONTINUOUS OPERATION SINCE 1851. FROM IT AND OUR OTHER LOCATIONS, WE PROVIDE AN UNSURPASSED RANGE OF COLORS, TEXTURES, AND VARIETIES OF PREMIUM GRADE GUILLOTINE CUT STONE AND UNCUT NATURAL FIELDSTONE.

WE SPECIALIZE IN CUTTING TO PRECISE ARCHITECTURAL SPECIFICATIONS AND MATCHING OLD OR EXISTING COLORS. OUR LARGE INVENTORY ALLOWS PROMPT DELIVERY, EVEN OF CUSTOM BLENDS FOR RENOVATIONS OR ADDITIONS WHERE COLOR MATCHING IS ESSENTIAL.

IF YOU CAN'T FIND THE STONE YOU NEED AT DELAWARE QUARRIES, MAYBE NATURE HASN'T PRODUCED IT.
DELAWARE VALLEY SANDSTONE

GUILLOTINE CUT STONE

A custom blend of stone—predominantly gray, enlivened by accents of gold and brown sandstone.

The pictures on this page show ashlar guillotine-cut Delaware Valley Sandstone. Ashlar stones are cut to have pleasing regular shapes, like rectangles or squares.

GUILLOTINE CUT STONE

Delaware Quarries

Guillotine Cut Stone provides beautiful split facings and reveals the natural inner beauty of the material. Thousands of pounds of pressure per square inch are used to cut raw stone slabs. Depending on the type of stone and its condition, the cutting force can reach as high as 50,000 psi. Because of this technique, weak or unsound stone shatters; only sound stone remains. Quality is assured, and you receive well-prepared, premium-grade stone.
The pictures on this page show rubble guillotine-cut Delaware Valley Sandstone. Rubble stones are cut to have interesting irregular shapes.

**SPECIFICATIONS:**

**DELAWARE VALLEY SANDSTONE**

Type: Sandstone blend.

Color: A range of light greys, with pink, light purple, brown, tan, buff, and red.

Shape: Produced in ashlar and rubble.

Size: Faces from \( \frac{1}{3} \) sq. ft. to 3 sq. ft.

Coverage: 4” veneer — 36-40 sq. ft. per ton

6” veneer — 30-35 sq. ft. per ton

8” veneer — 25-30 sq. ft. per ton

Larger facings may be available, depending on the run of material.

Exact coverage depends on building design and masonry techniques.

Colors can be custom-blended to meet individual requirements, for example, to match existing stonework. However, as a naturally occurring property of the stone, color will vary.
GOLDEN VEIN SANDSTONE

GUILLOTINE CUT STONE

A beautiful spectrum of soft, light colors available only from Golden Vein Sandstone.

As these pictures show, Golden Vein is available in both ashlar and rubble.

GOLDEN VEIN SANDSTONE

Type: A blend of split sandstone fieldstone.
Color: Overall golden appearance, produced by various light browns, tans and buffs.
Shape: Produced in ashlar and rubble, only.
Size: Faces from ½ sq. ft. to 1½ sq. ft.
Coverage: 4” veneer – 35-40 sq. ft. per ton.
6” veneer – 30-35 sq. ft. per ton.
8” veneer – 25-30 sq. ft. per ton.

Larger facings may be available, depending on the run of material.

Exact coverage depends on building design and masonry techniques.

Colors can be custom-blended to meet individual requirements, for example, to match existing stonework. However, as a naturally occurring property of the stone, color will vary.
BUCKS COUNTY BROWNSTONE

The traditional, early American appearance of Bucks County Brownstone often makes it the obvious choice.

This municipal office building is faced with ashlar Bucks County Brownstone.

BUCKS COUNTY BROWNSTONE

Type: Sandstone.
Color: Shades of reddish-brown, varying from pink-grey thru medium red to deep red.
Shape: Ashlar and rubble.
Size: Faces from 1/2 sq. ft. to 1 1/2 sq. ft.
Coverage: 4" veneer—35-40 sq. ft. per ton.
6" veneer—30-35 sq. ft. per ton.
8" veneer—25-30 sq. ft. per ton.
Larger facings may be available, depending on the run of material.
Exact coverage depends on building design and masonry techniques.
Colors can be custom blended to meet individual requirements, for example, to match existing stonework. However, as a naturally occurring property of the stone, color will vary.
ANTIQUE COLONIAL FIELDSTONE

The rugged, durable beauty of early American buildings.

Whether used for the entire face of the building or in combination with other materials, Antique Colonial Fieldstone creates a substantial, inviting appearance.
Type: Sandstone.

Color: Overall brown appearance, with various shades of beige, light buff and burgundy.

Shape: Rubble only; supplied in cut and uncut facings.

Size: Faces from $\frac{1}{2}$ sq. ft. to 1 sq. ft.

Coverage:
- 4-6" veneers – 30-35 sq. ft. per ton
- 8" veneer – 25-30 sq. ft. per ton

Larger facings may be available, depending on the run of material.

Exact coverage depends on building design and masonry techniques. Colors can be custom-blended to meet individual requirements, for example, to match existing stonework. However, as a naturally occurring property of the stone, color will vary.
BUCKS COUNTY BROWNSTONE FIELDSTONE

The stone that made Bucks County famous.

The Bucks County stone farmhouse—it’s an entire architectural tradition in itself. Bucks County Brownstone Fieldstone lets you create another generation of classics.
Type: Sandstone fieldstone.

Color: Weathered faces of reddish-brown, with accents varying from pink-grey thru medium red to deep red.

Shape: Rubble only.

Size: Faces from ½ sq. ft. to 1½ sq. ft.

Coverage: 4-6” veneer - 30-35 sq. ft. per ton
8” veneer - 25-30 sq. ft. per ton

Larger facings may be available, depending on the run of material.

Exact coverage depends on building design and masonry techniques.

Colors can be custom-blended to meet individual requirements, for example, to match existing stonework. However, as a naturally occurring property of the stone, color will vary.
BUCKSKIN TAN FIELDSTONE

A popular stone well-suited for all types of new American homes.

Because of its pleasing range of lighter colors, Buckskin Tan Fieldstone is often used for full stone fronts.
Type: Sandstone.
Color: Tan overall, with accents ranging from buff to chocolate brown.
Shape: Rubble only.
Size: Faces from 1/2 sq. ft. to 1 1/2 sq. ft.
Coverage: 4-6" veneer—30-35 sq. ft. per ton
8" veneer—25-30 sq. ft. per ton
☐ Larger facings may be available, depending on the run of material.
☐ Exact coverage depends on building design and masonry techniques.
☐ Colors can be custom-blended to meet individual requirements, for example, to match existing stonework. However, as a naturally occurring property of the stone, color will vary.
The classic colors and textures of gathered fieldstone.

Delaware Valley Fieldstone is the right choice for creating an overall soft rich gray or brown facade, depending on your preference and design requirements.
Type: A blend of sandstone fieldstone with cut and uncut faces.

Color: A pleasing variety of midrange colors: grey, salmon, red-brown, light brown and buff.

Shape: Rubble only.

Size: Faces from ¾ sq. ft. to 1¼ sq. ft.

Coverage: 4-6” veneers—30-35 sq. ft. per ton
8” veneer—25-30 sq. ft. per ton

☐ Larger facings may be available, depending on the run of material.
☐ Exact coverage depends on building design and masonry techniques.
☐ Colors can be custom-blended to meet individual requirements, for example, to match existing stonework. However, as a naturally occurring property of the stone, color will vary.
