Building Stone - Landscape Stone - Tru Stone® Thin Veneer

## Product Directory

Draft - v06.09.08

*Joe Busik*

Joseph Busik founded Delaware Quarries, Inc. in February 1946. He had just returned home from flying B17's over Europe in World War II. The Lt. Colonel purchased America's oldest operating quarry which had been operating since 1758, on the banks of the Delaware River, in Bucks County, PA. In the beginning, Joe would cut stone early in the day, and then at night would put on his salesman hat and go out to sell the stone veneer that he had just produced. Princeton University was one of Joe's first customers. Delaware Quarries supplied all of the Argillite and Sandstone veneers on their buildings constructed after WWII, and Princeton University continues to buy stone veneer and flagstone from us today. Some of the University buildings faced with our veneer are:

- The new Graduate Dorms
- The Engineering Quadrangle
- The Princeton University Store
- Institute for Advanced Study
- The Gymnasium
- The Educational Testing Service Center

Below is a brief list of other noteworthy institutions that have used our stone veneers:

- Lafayette College
- Morris County College
- Tufts University
- Villanova University
- Blair Academy
- Mercersburg Academy

*Lumberville Quarry, Circa Late 1800's*

Delaware Quarries, Inc. is the industry's most recognized supplier of building stone. We have supplied stone for 200,000 square foot institutional jobs, as well as stone for small fireplaces all over the world. When you buy stone from Delaware Quarries, Inc. you are getting the industry's most knowledgeable people as well as a company who has been honored by its peers from all over the world.

Building Stone Institute (BSI), the trade association of the Decorative Stone Industry, has presented Delaware Quarries with many awards, and has recognized us as America's largest stone supplier.

Delaware Quarries has recently begun a program that we call "Delaware Quarries University". This program was implemented to train our employees in all aspects of building stone, from the quarrying and processing to the sale and installation of this material. Our goal in using DQ University is to have the best employees in our industry.

A quote from the book entitled "Stone as a Building Material" published in 1972 by William M. Rivinus, in conjunction with local Historical Societies, and nationally known photographer Michael Smith, states that "Most inquiries about stone in this region will lead to Delaware Quarries."

Today, Delaware Quarries, Inc. is owned by J. Kevan Busik, the son of Joe Busik. At the age of 11, Kevan had already begun helping his father in the quarry, and after graduating college in 1972 became a full time member of the DQ team.

Kevan was elected President of the Building Stone Institute at their 2000 annual convention. A few years later, at the 84th annual BSI convention, Kevan was named "Man of the Year". BSI members from around the world honored him for his principals, honor and integrity. Kevan and Joe are the only Father and Son past Presidents that were both elected Man of the Year.

Delaware Quarries, Inc. owns and operates over 8 facilities, and is headquartered in New Hope, PA. We also have agreements with other stone quarries where we quarry stone. The combination of these quarries has enabled us to offer the largest selection of building and landscape stone in the industry.

# Terms & Conditions

---

*Products are not returnable. Claims for damaged or missing goods can only be processed if customer inspects product at time of delivery and notes damaged or missing items on shipping document. All claims must be reported to a salesperson at 800-533-4954 in order to be expeditiously processed.*

## **Availability:**

Most products are from stock and subject to availability. Prices are subject to change without notice. Please verify pricing at time of order. Price list contains wholesale items only. Many additional products are available for sale. From time to time, wholesale customers may find the need to purchase products that are normally available in our retail yard (Lumberville). The price of these products will be our wholesale price (contained in this book) plus 14%.

## **Full Truckloads:**

Wholesale prices are based on full truckload quantities only. Bulk products cannot be mixed; a full truck-load is approximately 24 tons. Palletized products may be mixed with other palletized products; a full truck-load is approximately 14 - 18 pallets per flatbed truck, depending on the product mix.

## **Freight:**

All prices are F.O.B. (Free on Board) Delaware Quarries, Inc. yards or location specified by item. Please call for freight quotes to your location. Split shipments and shipments requested from multiple yards will be subject to additional charges. All freight rates are quoted from common carriers.

## **Terms:**

Orders are pre-paid until credit terms are established. Our preferred method of payment is by credit card. Standard credit terms of Net 30 days apply once credit is established. For your convenience, a Credit Application and Bank Release form are attached – please complete these forms and fax or mail to our Credit Department at 215-862-1685. Allow three weeks for processing of credit applications.

## **Pallet Charges:**

All orders for Pennsylvania Bluestone (Treads, Irregular Flagstone, Dimensional Flagstone, & Steps) will include a charge of \$19.00 per pallet. Pallets are non-returnable.
